👤 PROFILE

Enthusiastic and detail-oriented Flutter Developer with approximately 1 year of hands-on experience in developing cross-platform mobile applications using Flutter and Dart. Skilled in building responsive and visually appealing UI, integrating RESTful APIs, and implementing efficient state management using GetX and Provider. Familiar with Firebase services, version control (Git), and third-party plugin integration. Demonstrated ability to deliver quality code, collaborate with teams, and contribute to the full mobile app development lifecycle. Eager to learn, adapt, and grow in a fast-paced development environment.

📁 PROFESSIONAL EXPERIENCE

Flutter Developer

Quanrio

08/2024 – present
karachi, Pakistan

- Worked on multiple production applications including **Potenic**, **Earnscape**, and **Saheli**.
- Built offline functionality using Sqflite, enabling seamless app usage without internet connectivity.
- Resolved 50+ UI and logic-level issues across applications, improving stability and user experience.
- Contributed to Earnscape Live by implementing live-streaming features, user follow systems, fraud detection, and admin moderation tools.
- Improved application performance and reliability by fixing app-wide issues and optimizing workflows.
- Developed a custom Android SDK in Kotlin and integrated it with Flutter, React Native, and Native Android applications for cross-platform compatibility.

🎓 EDUCATION

Computer Science

Sir Syed University of Engineering and Technology

2020 – 2024
karachi, Pakistan

📁 PROJECTS

Cataract Diabetic and Glaucoma (CDG) App

This app detects eye diseases using both images and real-time analysis. If a severe condition is identified, it provides the user with nearby locations for a medical checkup.

Earnscape

Earnscape is an interactive gaming platform where users play games, stream live to multiple platforms, and earn rewards based on their gameplay time. It combines gaming, live streaming, and real-time engagement into one seamless experience. Players accumulate points through play and redeem them for real-world rewards.

Potenic

This app is designed for individuals experiencing depression and seeking support. It allows users to set personal goals, follow guided practices, and share their current emotional state to help track and improve their mental well-being.

SKILLS

Mobile Development: Flutter, Kotlin, Jetpack Compose, FlutterFlame

State Management & Architecture: GetX, Provider, Riverpod, BLoC, MVC, MVVM

Others: RESTful APIs, Firebase (FCM), Sqflite, Google Ads, Stripe, Git, CI/CD, Responsive Design

CERTIFICATES

Flutter Development (onsite)

Saylani Mass IT Training
(SMIT)
Completed 2024

Kotlin Development (online)

Sindh Skills Dev Program
(SSDP)
Completed 2025
